

babytalk

This fall there are changes coming to the Health Unit's Baby Talk weekly drop-in group for parents and babies.

Starting the week of September 12, 2011, the following changes will be implemented:

- Groups will run for 1.5 hours at all 8 locations.
- The Public Health Nurse or guest speaker will make a brief presentation at the beginning of each session. Topics will be similar at all locations and suggestions from parents welcome.
- There will be less focus on weighing babies.

See below for changes to the Baby Talk schedule starting September 12, 2011:
